

Comprehensive UI, Menu & Feature Screenshot Guide

A full visual audit and architectural walkthrough of the open-source Enterprise Resource Planning suite, covering authentication, onboarding, human resources, finance, project management, and analytics.

Platform: TeamNext ERP v2.4	Generated: August 23, 2026
Framework: Python / Django 5.2 / SQLite	Captured Screens: 20 Modules
Interface Scale: 1600 × 1000 High-Res	Security: PBKDF2 / Multi-Factor OTP

Platform Architecture & Functional Blueprint

TeamNext ERP is an enterprise resource planning and organizational collaboration management system designed to consolidate core business operations into an integrated interface. This document contains high-definition visual screenshots across all onboarding portals, operational menus, and business feature modules. Each section provides route endpoints, UI design highlights, and workflow specifications.

Category / Domain	Screens & Features Included
Onboarding & Authentication	Enterprise Login Portal & MFA Authentication, Company & Workspace Registration Onboarding, Multi-Factor OTP Security Screen, Self-Service Password Recovery Portal, Credential Creation & Password Setup
Executive & Core Operations	Executive Command Center & KPI Dashboard
Human Resources & Workforce	HR & Workforce Management System, Employee Leave & Absence Tracking
Financial Management	Finance, GST Invoicing & Payroll Management, Asset Inventory & Stock Control
Project & Workflow Management	Project Management & Department Workspaces
Communication & Collaboration	Real-Time Team Collaboration & Chat Channels, Corporate Email & Communication Hub, Internal Social Feed & Announcements
Business Intelligence	BI Analytics & Performance Intelligence, Executive Reports & Document Generator
Support & Operations	Helpdesk & Support Ticketing System

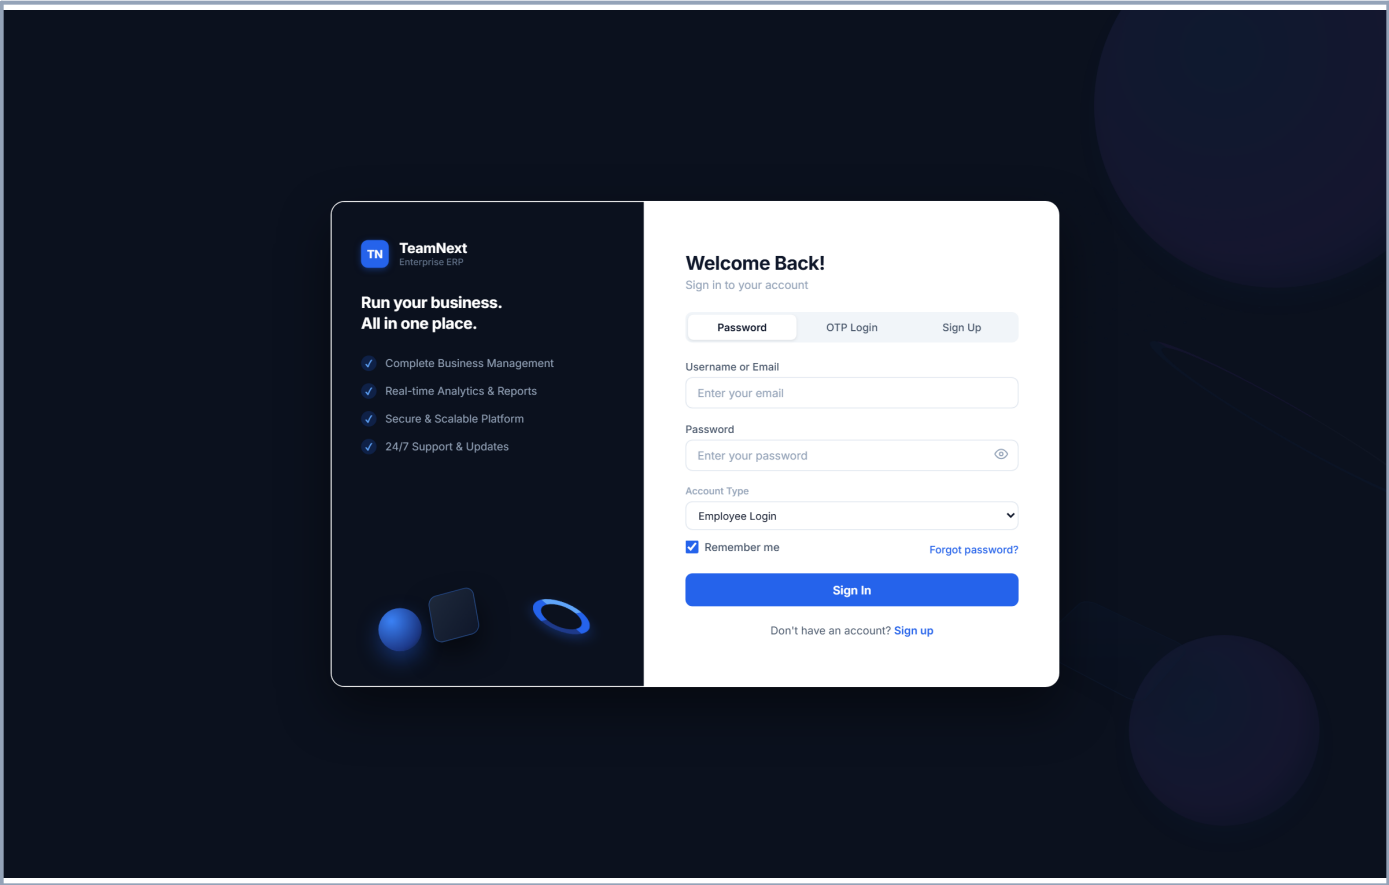

System Administration	User Management & Role Administration, Personal User Profile & Security Settings, Workspace & Organization Settings
-----------------------	---

MODULE 01 OF 20 • ONBOARDING & AUTHENTICATION

Enterprise Login Portal & MFA Authentication

Route URL: http://127.0.0.1:8000/	Authentication: Public / Onboarding
--	-------------------------------------

Functional Overview: Dual-mode login portal supporting fast OTP email verification and secure hashed enterprise password authentication with company directory selection.

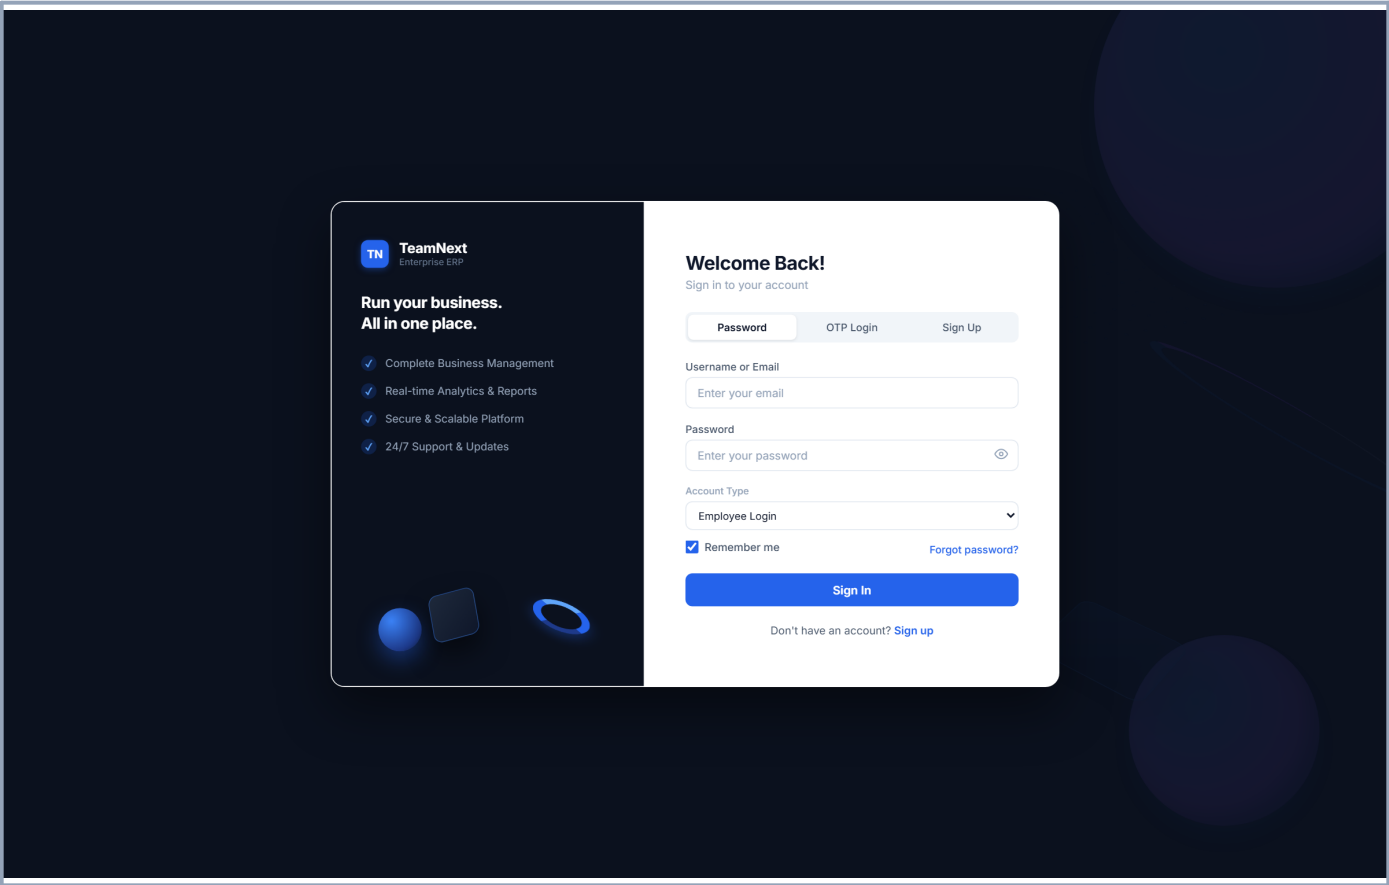

Key Menu Actions & Capabilities: • Live interactive data filtering & CRUD actions • Real-time modal dialogues and form input validation • Breadcrumb navigation and fast module switching	Business & Security Value: • Role-based permission controls & audit logs • Export capabilities (PDF / Excel / CSV formats) • Responsive UI styled with modern CSS & glassmorphism
--	--

MODULE 02 OF 20 • ONBOARDING & AUTHENTICATION

Company & Workspace Registration Onboarding

Route URL: http://127.0.0.1:8000/signup/	Authentication: Public / Onboarding
--	-------------------------------------

Functional Overview: Comprehensive corporate onboarding wizard capturing company entity details, industry sector, team size, administrative credentials, and verification.

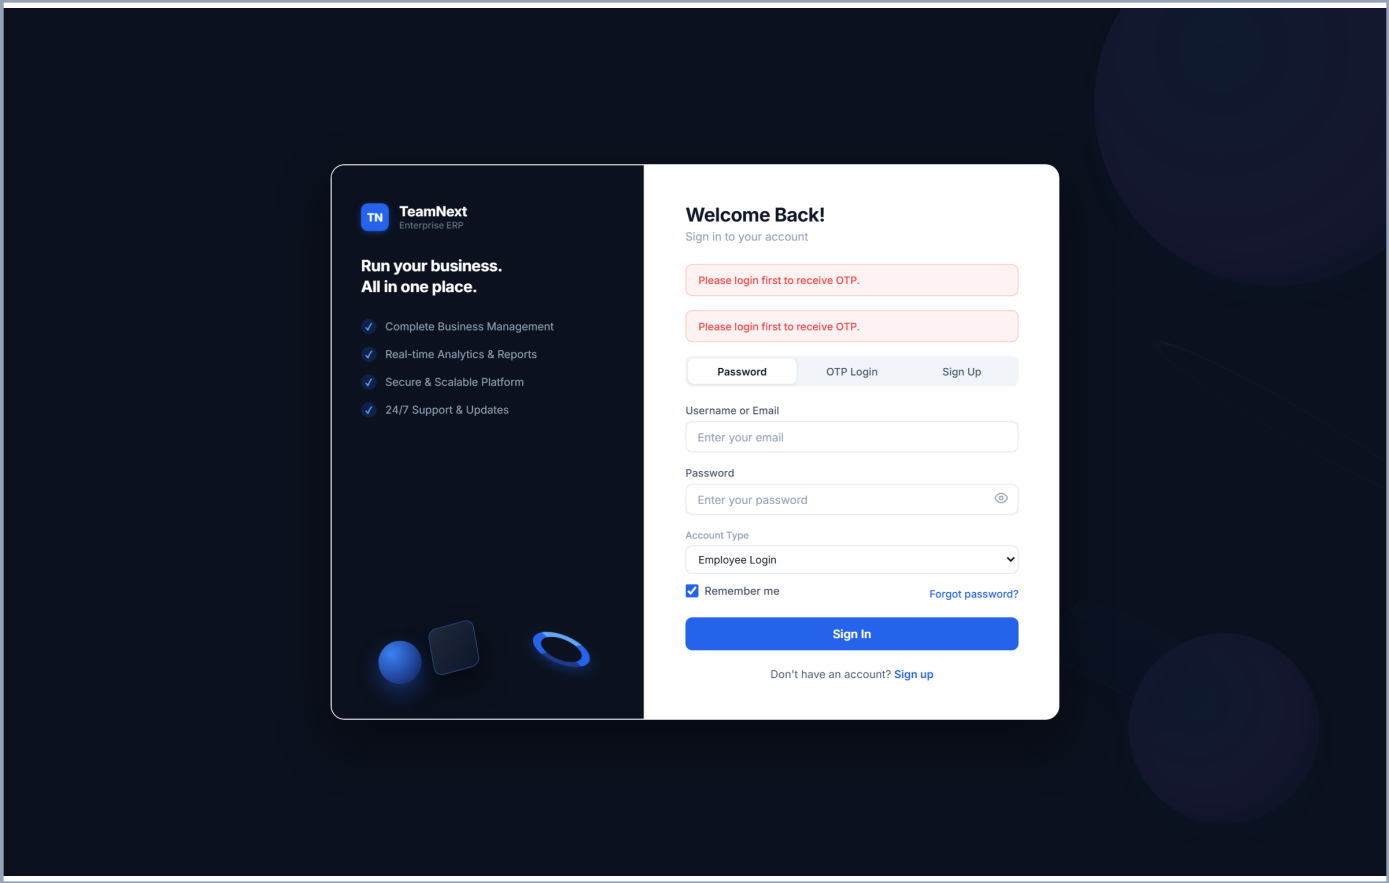

Key Menu Actions & Capabilities:	Business & Security Value:
• Live interactive data filtering & CRUD actions • Real-time modal dialogues and form input validation • Breadcrumb navigation and fast module switching	• Role-based permission controls & audit logs • Export capabilities (PDF / Excel / CSV formats) • Responsive UI styled with modern CSS & glassmorphism

MODULE 03 OF 20 • ONBOARDING & AUTHENTICATION

Multi-Factor OTP Security Screen

Route URL: http://127.0.0.1:8000/otp/	Authentication: Public / Onboarding
--	-------------------------------------

Functional Overview: Cryptographically verified 4-digit numeric OTP authentication screen with automated countdown timer, brute-force rate limiter, and email resend handler.

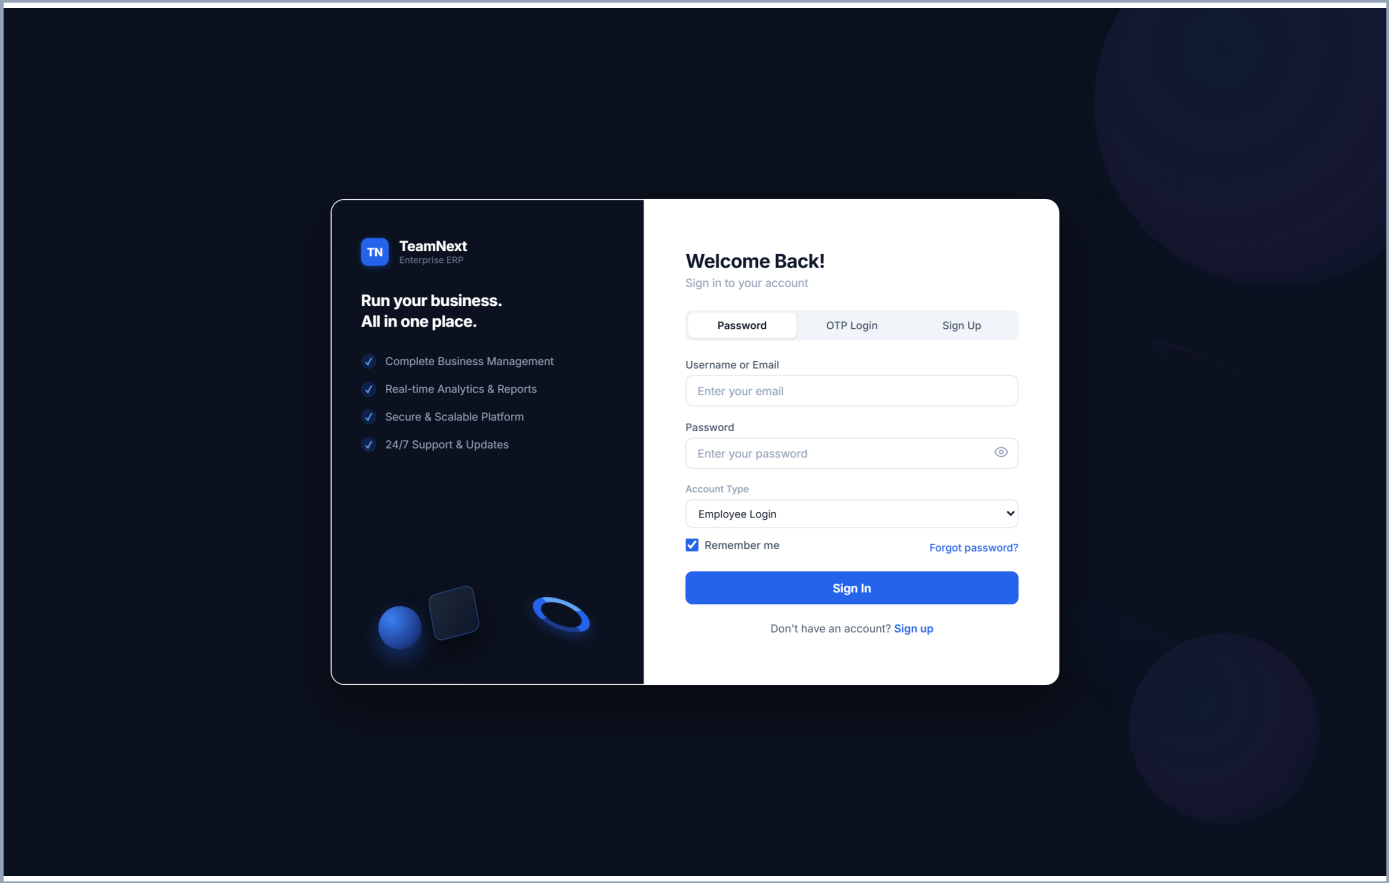

Key Menu Actions & Capabilities:	Business & Security Value:
• Live interactive data filtering & CRUD actions • Real-time modal dialogues and form input validation • Breadcrumb navigation and fast module switching	• Role-based permission controls & audit logs • Export capabilities (PDF / Excel / CSV formats) • Responsive UI styled with modern CSS & glassmorphism

MODULE 04 OF 20 • ONBOARDING & AUTHENTICATION

Self-Service Password Recovery Portal

Route URL: http://127.0.0.1:8000/forgot-password/	Authentication: Public / Onboarding
--	-------------------------------------

Functional Overview: Automated identity verification and password reset dispatch interface for employees and administrators with secure token dispatch.

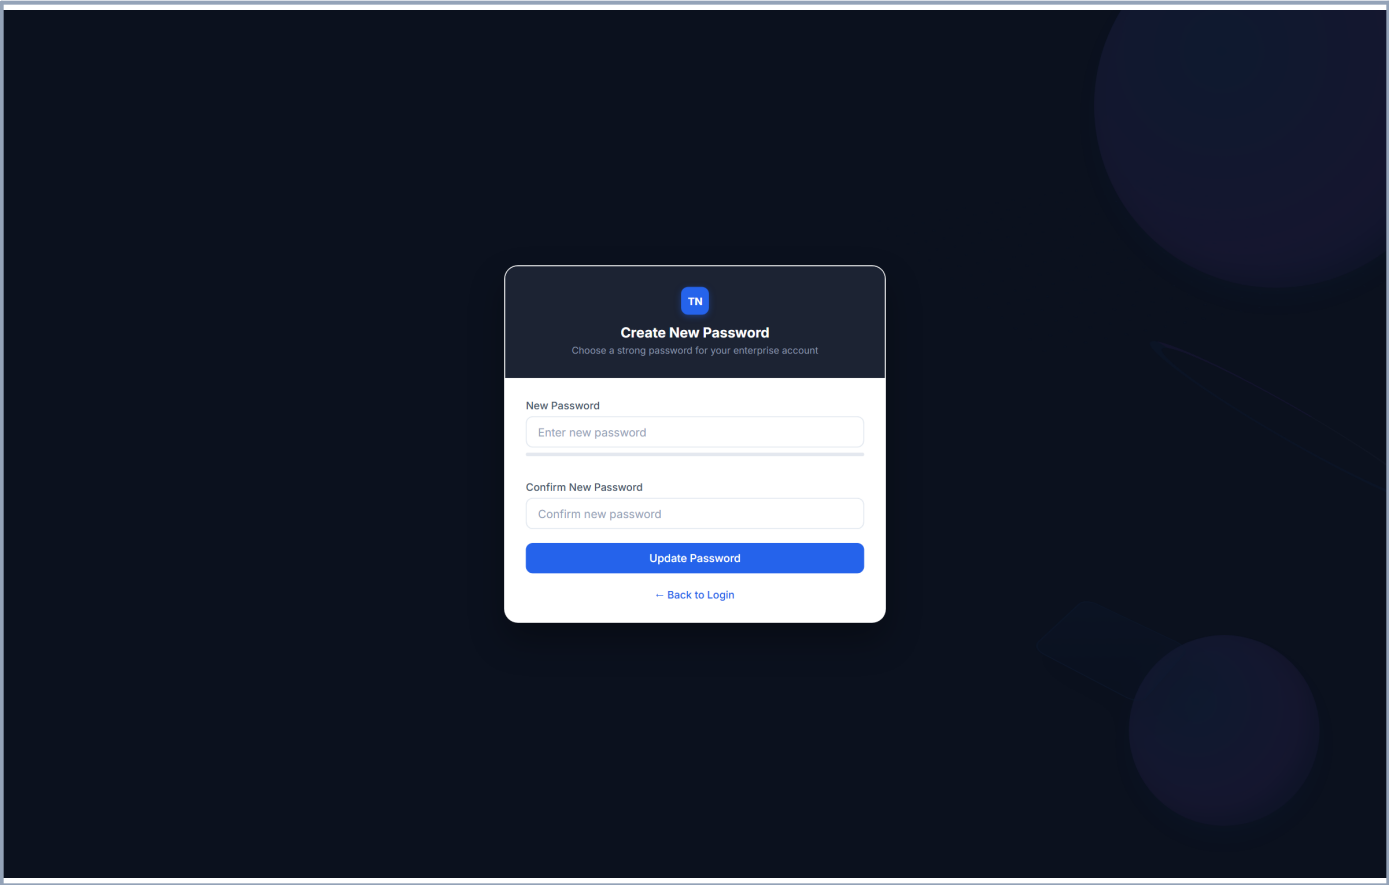

Key Menu Actions & Capabilities:	Business & Security Value:
• Live interactive data filtering & CRUD actions • Real-time modal dialogues and form input validation • Breadcrumb navigation and fast module switching	• Role-based permission controls & audit logs • Export capabilities (PDF / Excel / CSV formats) • Responsive UI styled with modern CSS & glassmorphism

MODULE 05 OF 20 • ONBOARDING & AUTHENTICATION

Credential Creation & Password Setup

Route URL: http://127.0.0.1:8000/set-password/	Authentication: Public / Onboarding
--	-------------------------------------

Functional Overview: Secure credential establishment portal enforcing enterprise password complexity standards and PBKDF2 cryptographic hashing.

Key Menu Actions & Capabilities: • Live interactive data filtering & CRUD actions • Real-time modal dialogues and form input validation • Breadcrumb navigation and fast module switching	Business & Security Value: • Role-based permission controls & audit logs • Export capabilities (PDF / Excel / CSV formats) • Responsive UI styled with modern CSS & glassmorphism
--	--

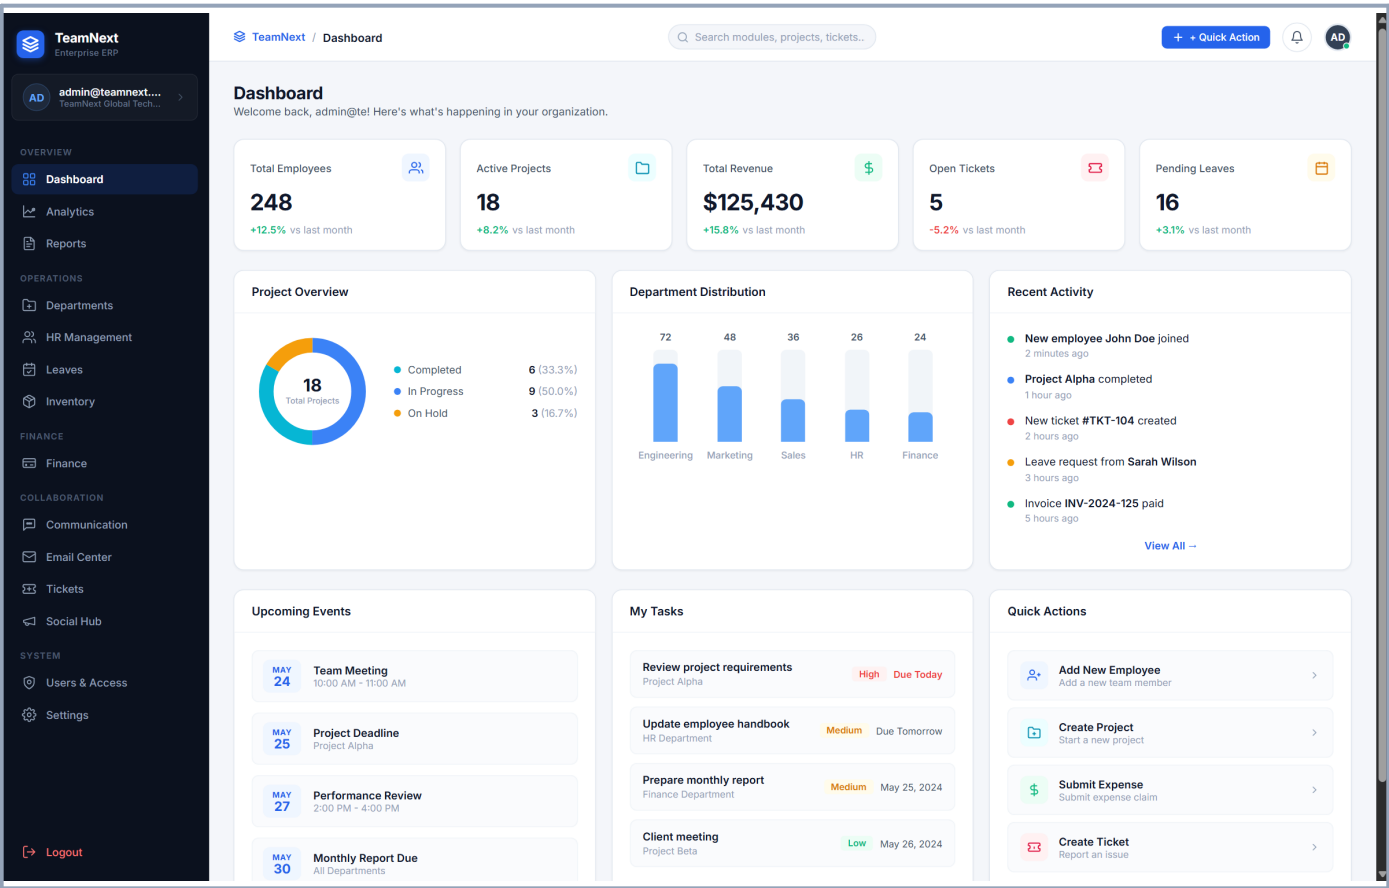

MODULE 06 OF 20 • EXECUTIVE & CORE OPERATIONS

Executive Command Center & KPI Dashboard

Route URL: <http://127.0.0.1:8000/dashboard/>

Authentication: Required (Session Verified)

Functional Overview: Real-time overview of active projects, critical support tickets, quick-action email dispatchers, developer workforce metrics, and team status feeds.

Key Menu Actions & Capabilities:

- Live interactive data filtering & CRUD actions
- Real-time modal dialogues and form input validation
- Breadcrumb navigation and fast module switching

Business & Security Value:

- Role-based permission controls & audit logs
- Export capabilities (PDF / Excel / CSV formats)
- Responsive UI styled with modern CSS & glassmorphism

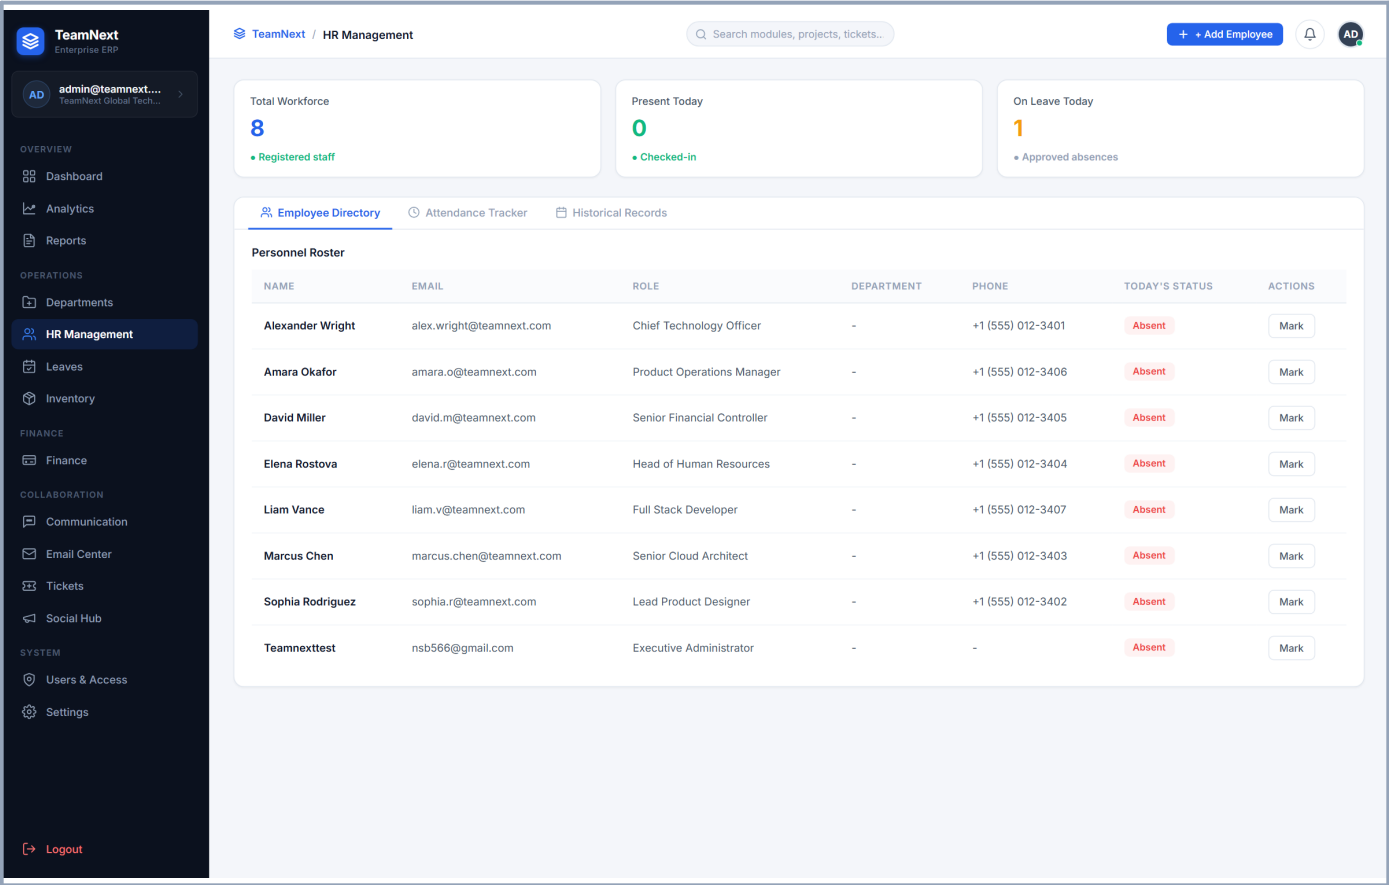

MODULE 07 OF 20 • HUMAN RESOURCES & WORKFORCE

HR & Workforce Management System

Route URL: <http://127.0.0.1:8000/hr-page/>

Authentication: Required (Session Verified)

Functional Overview: Full-lifecycle employee directory, department structuring, daily biometric attendance tracking, check-in timestamps, and employee onboarding.

Key Menu Actions & Capabilities:	Business & Security Value:
• Live interactive data filtering & CRUD actions • Real-time modal dialogues and form input validation • Breadcrumb navigation and fast module switching	• Role-based permission controls & audit logs • Export capabilities (PDF / Excel / CSV formats) • Responsive UI styled with modern CSS & glassmorphism

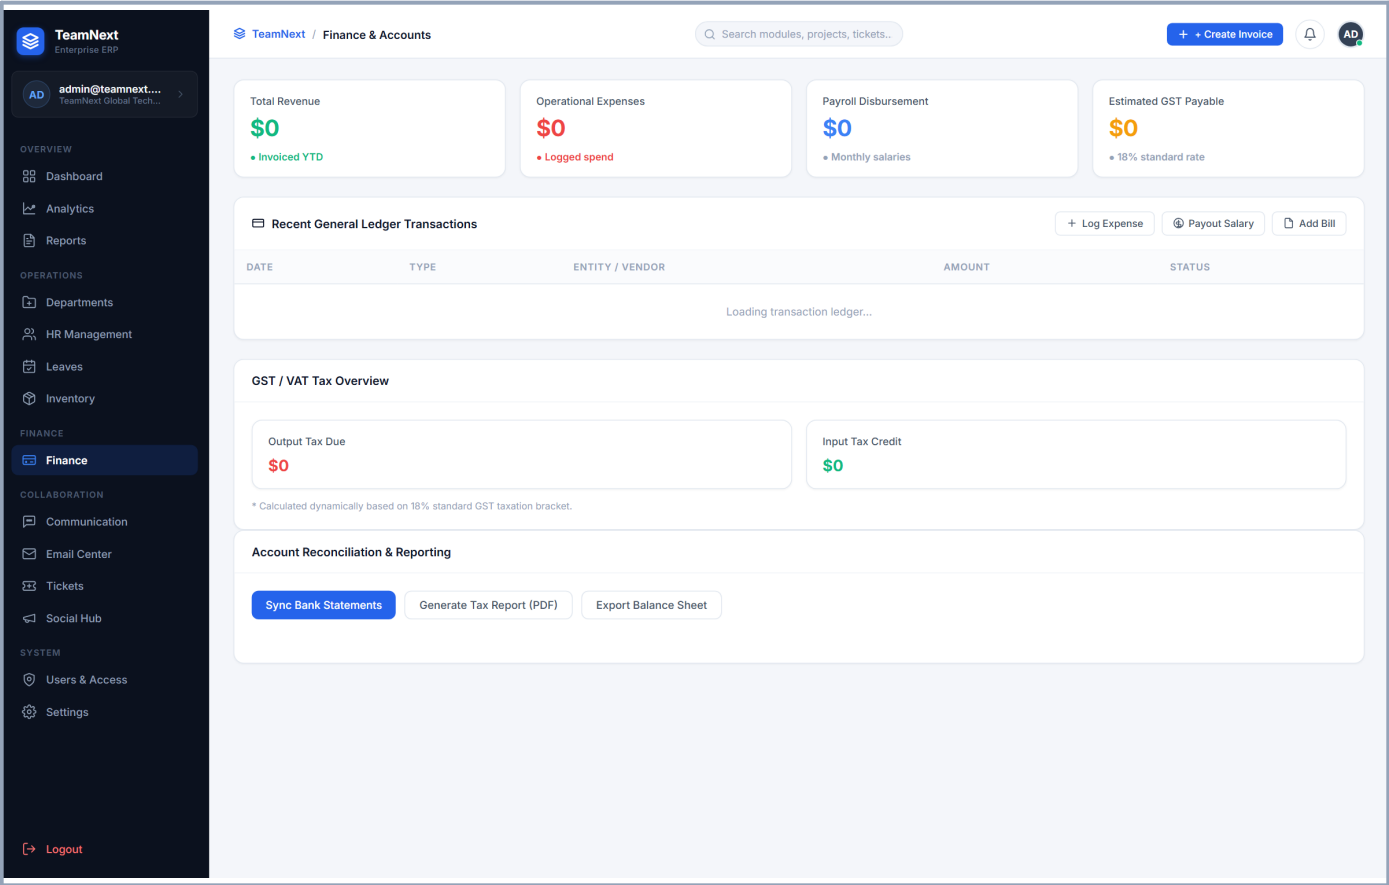

MODULE 08 OF 20 • FINANCIAL MANAGEMENT

Finance, GST Invoicing & Payroll Management

Route URL: <http://127.0.0.1:8000/finance-page/>

Authentication: Required (Session Verified)

Functional Overview: Enterprise financial ledger featuring GST-compliant invoice generation, expense categorization, automated payroll calculation, vendor bills, and bank reconciliation.

Key Menu Actions & Capabilities: • Live interactive data filtering & CRUD actions • Real-time modal dialogues and form input validation • Breadcrumb navigation and fast module switching	Business & Security Value: • Role-based permission controls & audit logs • Export capabilities (PDF / Excel / CSV formats) • Responsive UI styled with modern CSS & glassmorphism
--	--

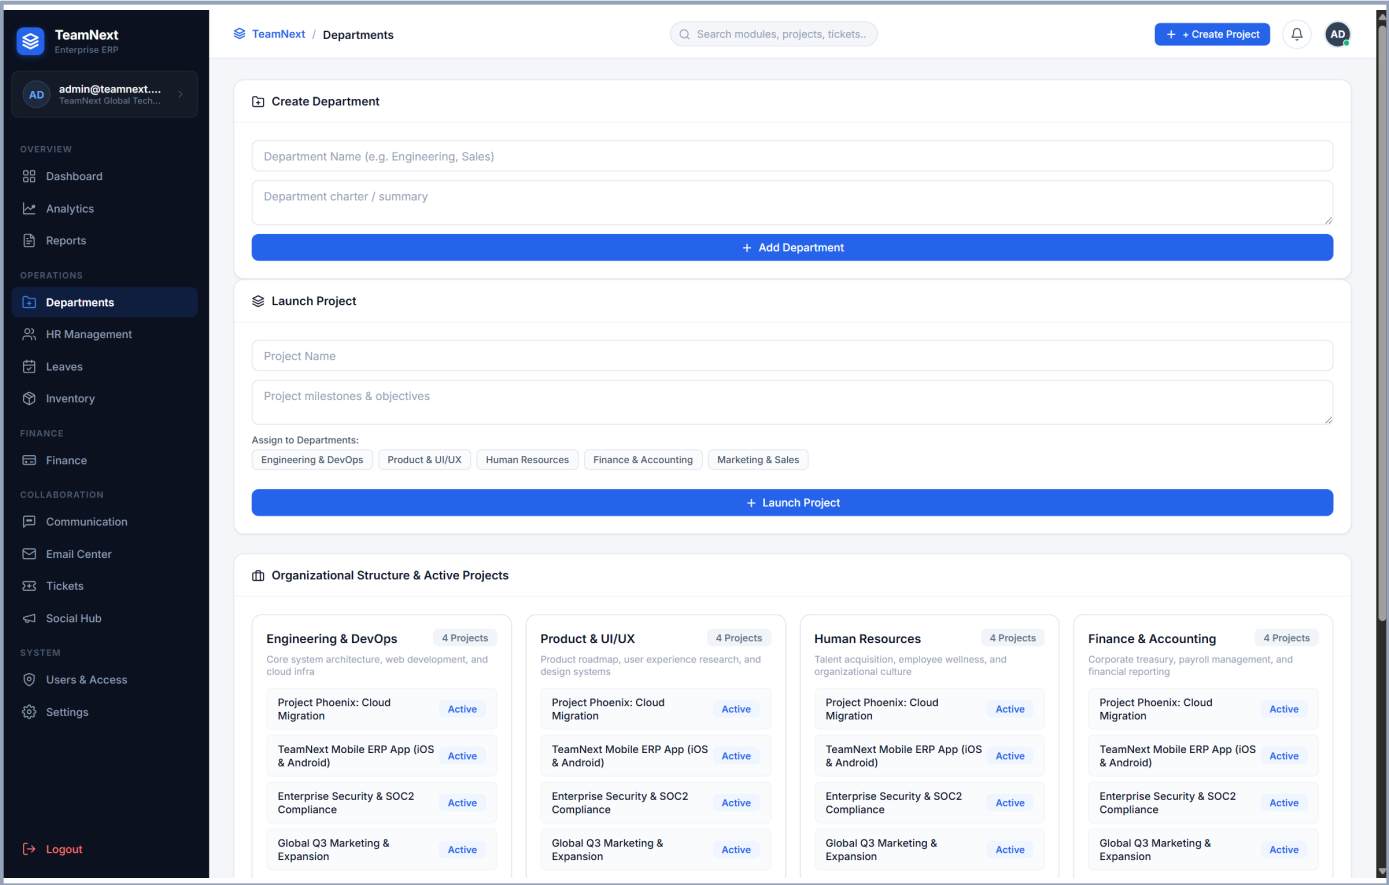

MODULE 09 OF 20 • PROJECT & WORKFLOW MANAGEMENT

Project Management & Department Workspaces

Route URL: <http://127.0.0.1:8000/projects-page/>

Authentication: Required (Session Verified)

Functional Overview: Multi-department project spaces, task boards, passcode-locked channels, team member role assignment, and milestone delivery trackers.

Key Menu Actions & Capabilities:	Business & Security Value:
• Live interactive data filtering & CRUD actions • Real-time modal dialogues and form input validation • Breadcrumb navigation and fast module switching	• Role-based permission controls & audit logs • Export capabilities (PDF / Excel / CSV formats) • Responsive UI styled with modern CSS & glassmorphism

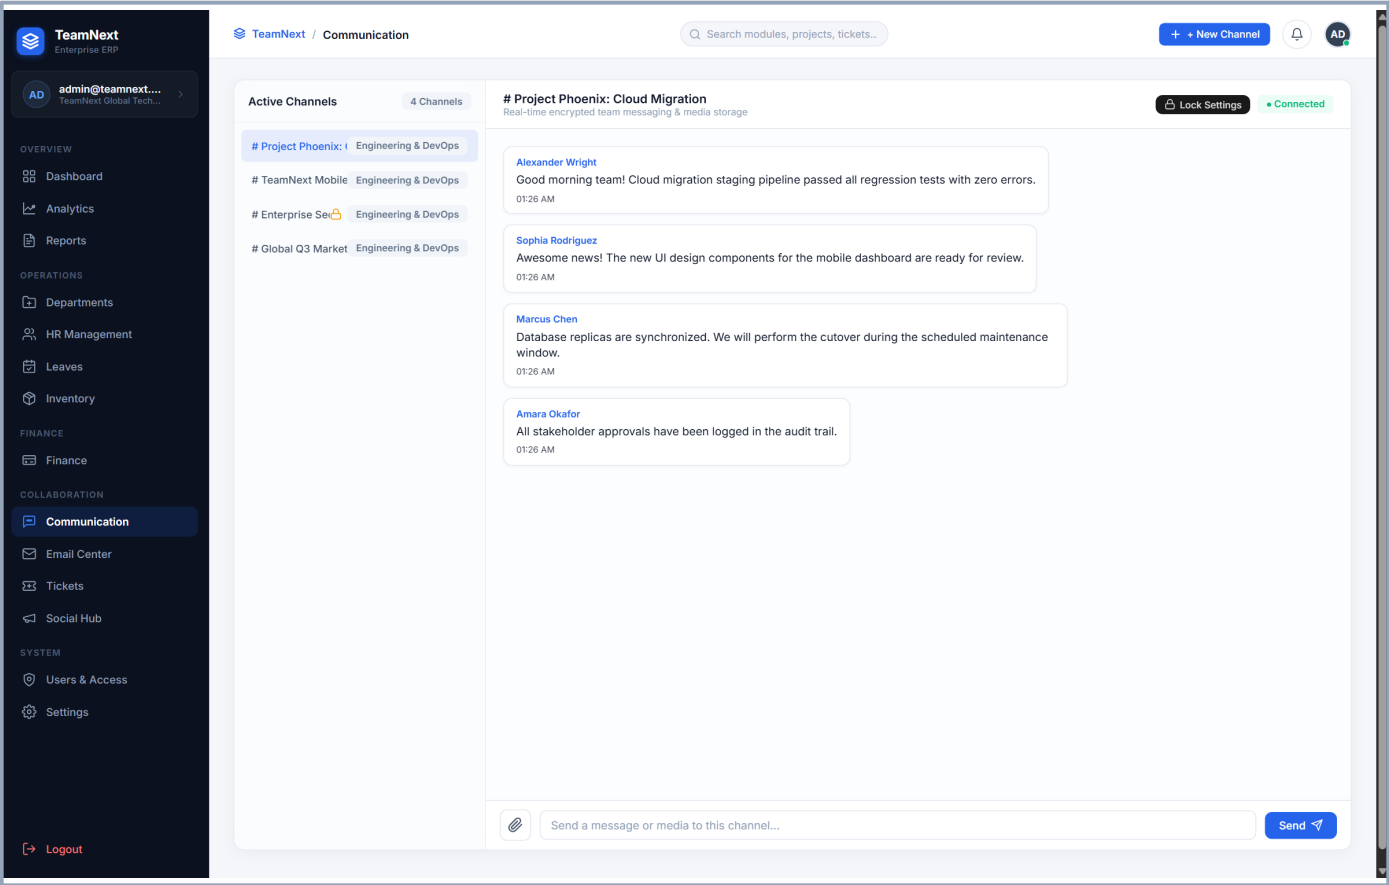

MODULE 10 OF 20 • COMMUNICATION & COLLABORATION

Real-Time Team Collaboration & Chat Channels

Route URL: <http://127.0.0.1:8000/chat-page/>

Authentication: Required (Session Verified)

Functional Overview: High-performance team messaging hub with project-based chat rooms, file and media attachments, granular channel access locks, and member permission controls.

Key Menu Actions & Capabilities:	Business & Security Value:
• Live interactive data filtering & CRUD actions • Real-time modal dialogues and form input validation • Breadcrumb navigation and fast module switching	• Role-based permission controls & audit logs • Export capabilities (PDF / Excel / CSV formats) • Responsive UI styled with modern CSS & glassmorphism

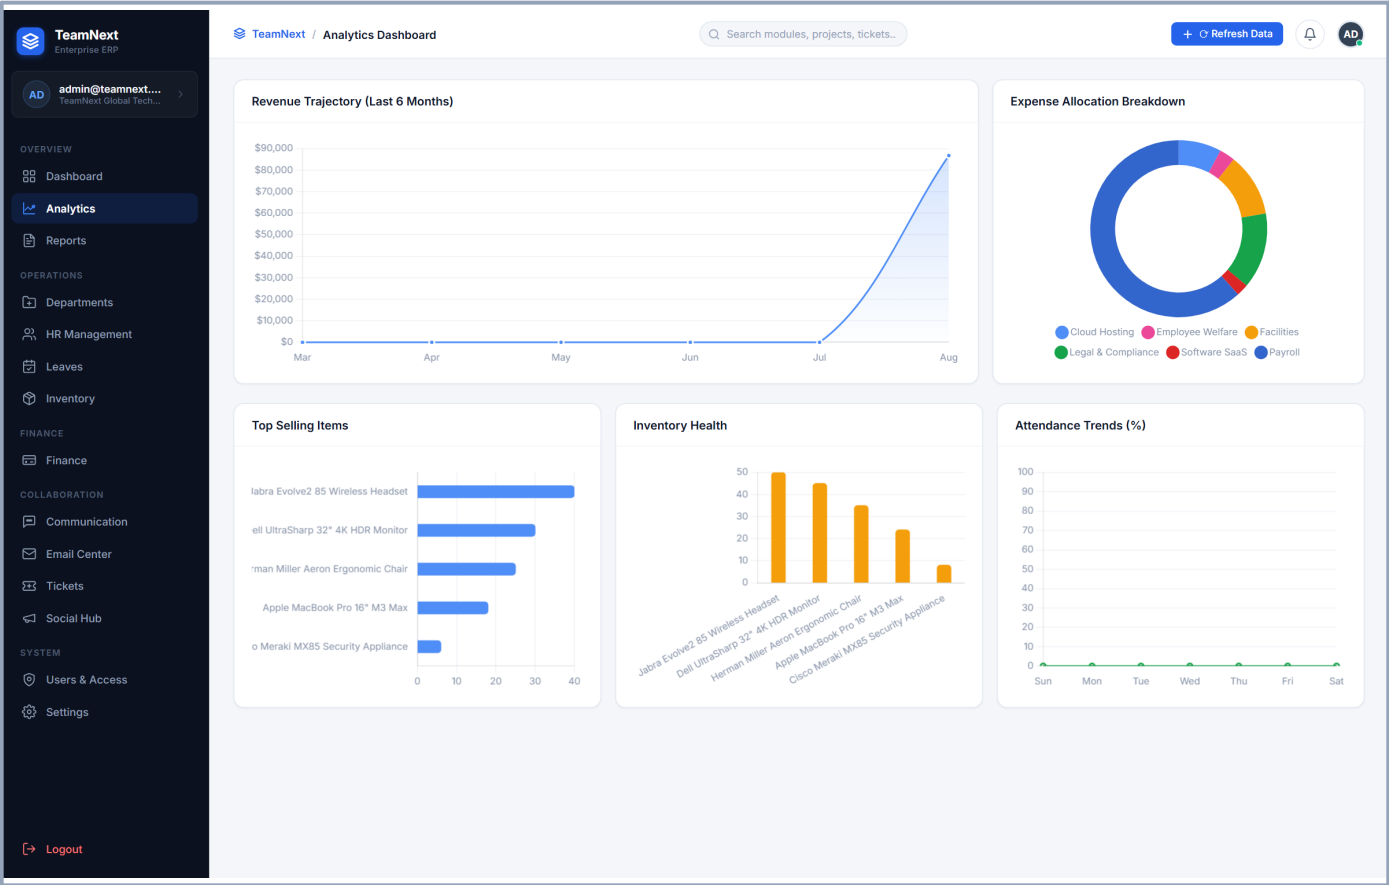

MODULE 11 OF 20 • BUSINESS INTELLIGENCE

BI Analytics & Performance Intelligence

Route URL: <http://127.0.0.1:8000/analytics-page/>

Authentication: Required (Session Verified)

Functional Overview: Dynamic data visualization dashboard displaying revenue trends, departmental expense breakdowns, employee growth curves, and operational KPIs.

Key Menu Actions & Capabilities:

- Live interactive data filtering & CRUD actions
- Real-time modal dialogues and form input validation
- Breadcrumb navigation and fast module switching

Business & Security Value:

- Role-based permission controls & audit logs
- Export capabilities (PDF / Excel / CSV formats)
- Responsive UI styled with modern CSS & glassmorphism

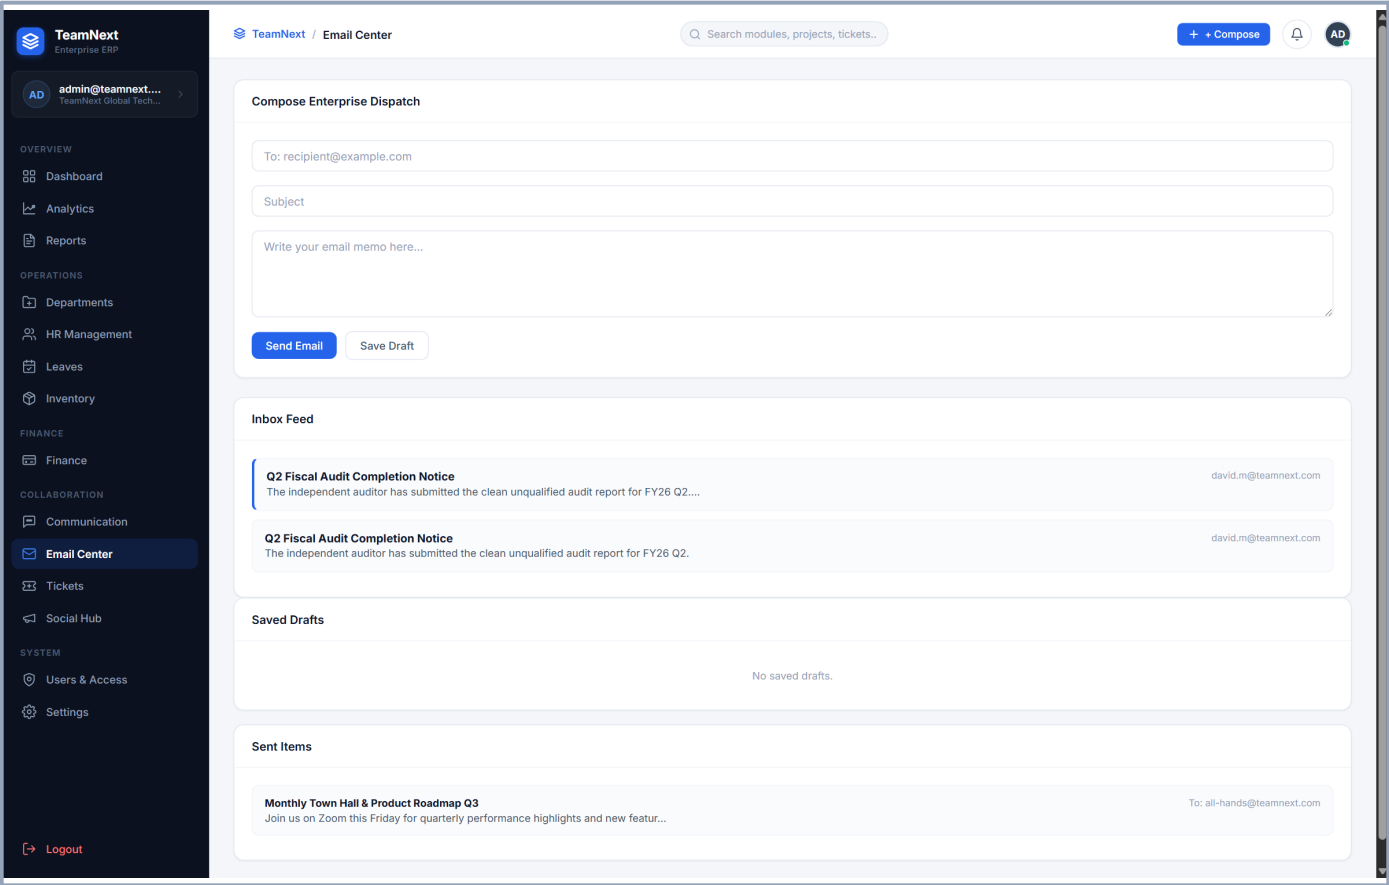

MODULE 12 OF 20 • COMMUNICATION & COLLABORATION

Corporate Email & Communication Hub

Route URL: <http://127.0.0.1:8000/email-page/>

Authentication: Required (Session Verified)

Functional Overview: Centralized enterprise email client with multi-folder navigation (Inbox, Sent, Drafts), rich-text compose modal, and Brevo SMTP email synchronization.

Key Menu Actions & Capabilities:	Business & Security Value:
• Live interactive data filtering & CRUD actions • Real-time modal dialogues and form input validation • Breadcrumb navigation and fast module switching	• Role-based permission controls & audit logs • Export capabilities (PDF / Excel / CSV formats) • Responsive UI styled with modern CSS & glassmorphism

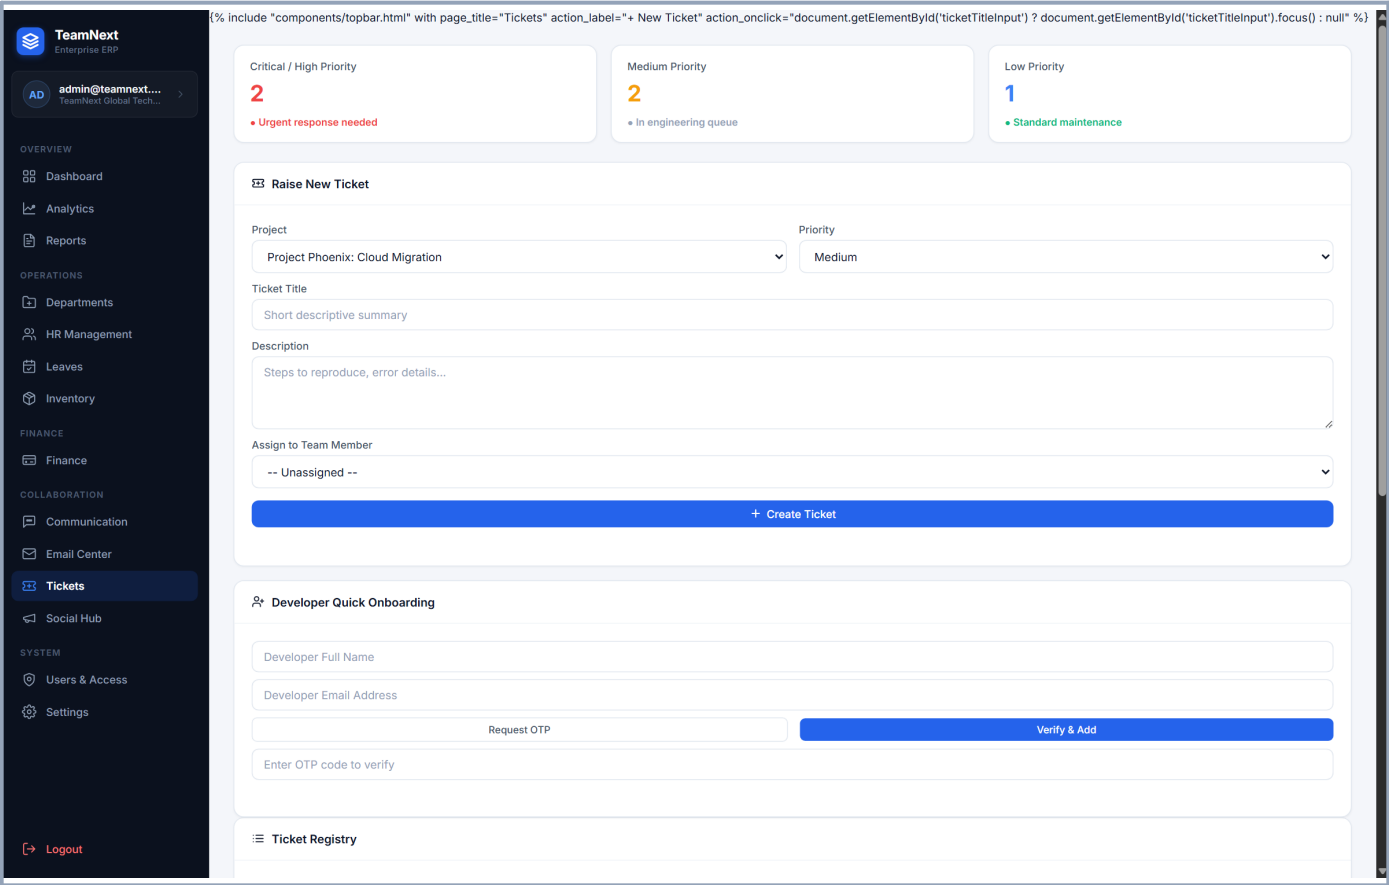

MODULE 13 OF 20 • SUPPORT & OPERATIONS

Helpdesk & Support Ticketing System

Route URL: <http://127.0.0.1:8000/tickets-page/>

Authentication: Required (Session Verified)

Functional Overview: Customer and internal support ticketing workflow with urgency prioritization (High, Medium, Low), assignee delegation, and status resolution tracking.

Key Menu Actions & Capabilities:	Business & Security Value:
• Live interactive data filtering & CRUD actions • Real-time modal dialogues and form input validation • Breadcrumb navigation and fast module switching	• Role-based permission controls & audit logs • Export capabilities (PDF / Excel / CSV formats) • Responsive UI styled with modern CSS & glassmorphism

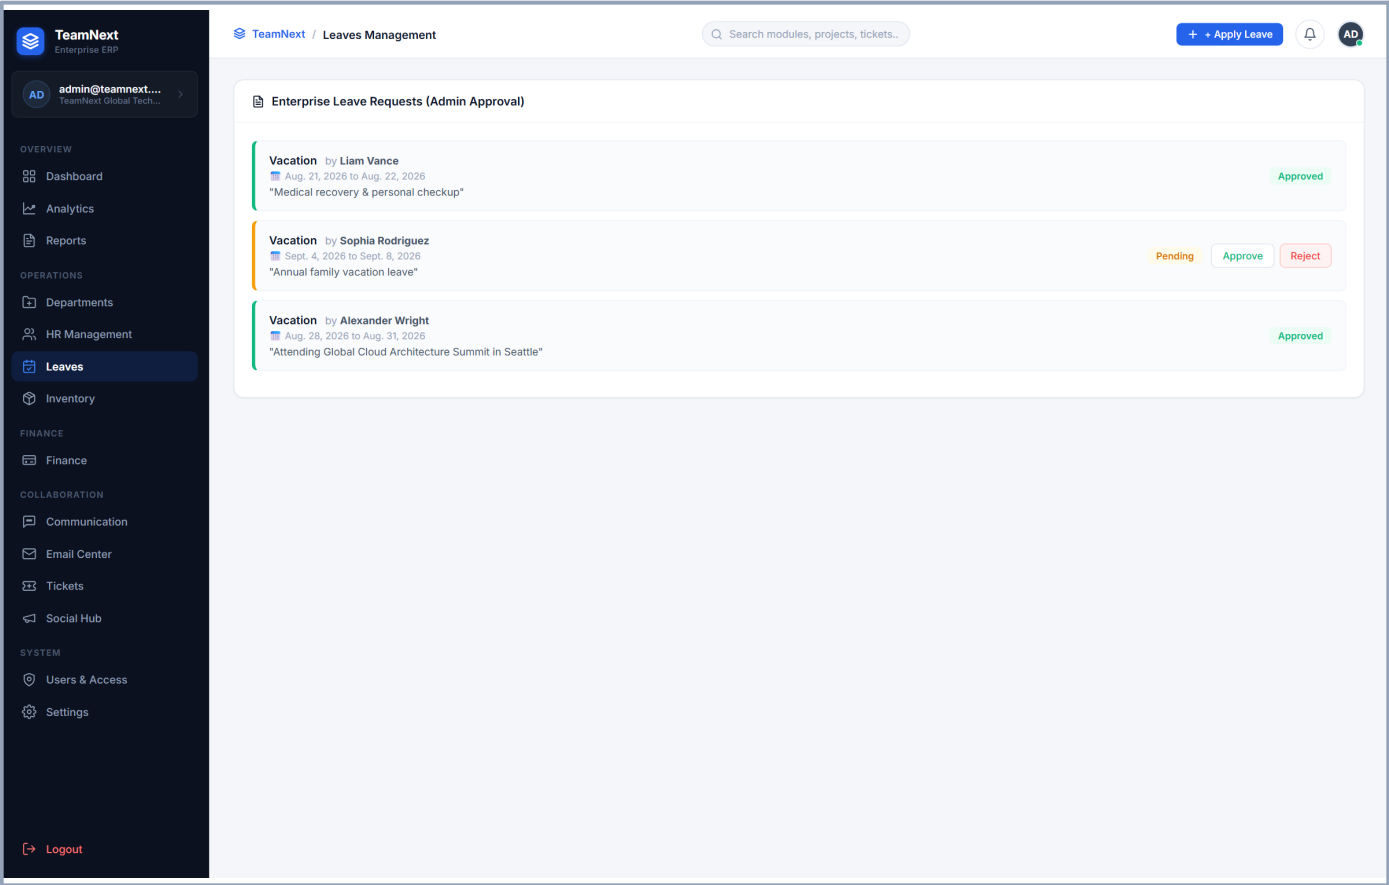

MODULE 14 OF 20 • HUMAN RESOURCES & WORKFORCE

Employee Leave & Absence Tracking

Route URL: <http://127.0.0.1:8000/leaves-page/>

Authentication: Required (Session Verified)

Functional Overview: Digital leave requisition and management platform with calendar date range pickers, status approval workflows, and leave quota tracking.

Key Menu Actions & Capabilities:	Business & Security Value:
• Live interactive data filtering & CRUD actions • Real-time modal dialogues and form input validation • Breadcrumb navigation and fast module switching	• Role-based permission controls & audit logs • Export capabilities (PDF / Excel / CSV formats) • Responsive UI styled with modern CSS & glassmorphism

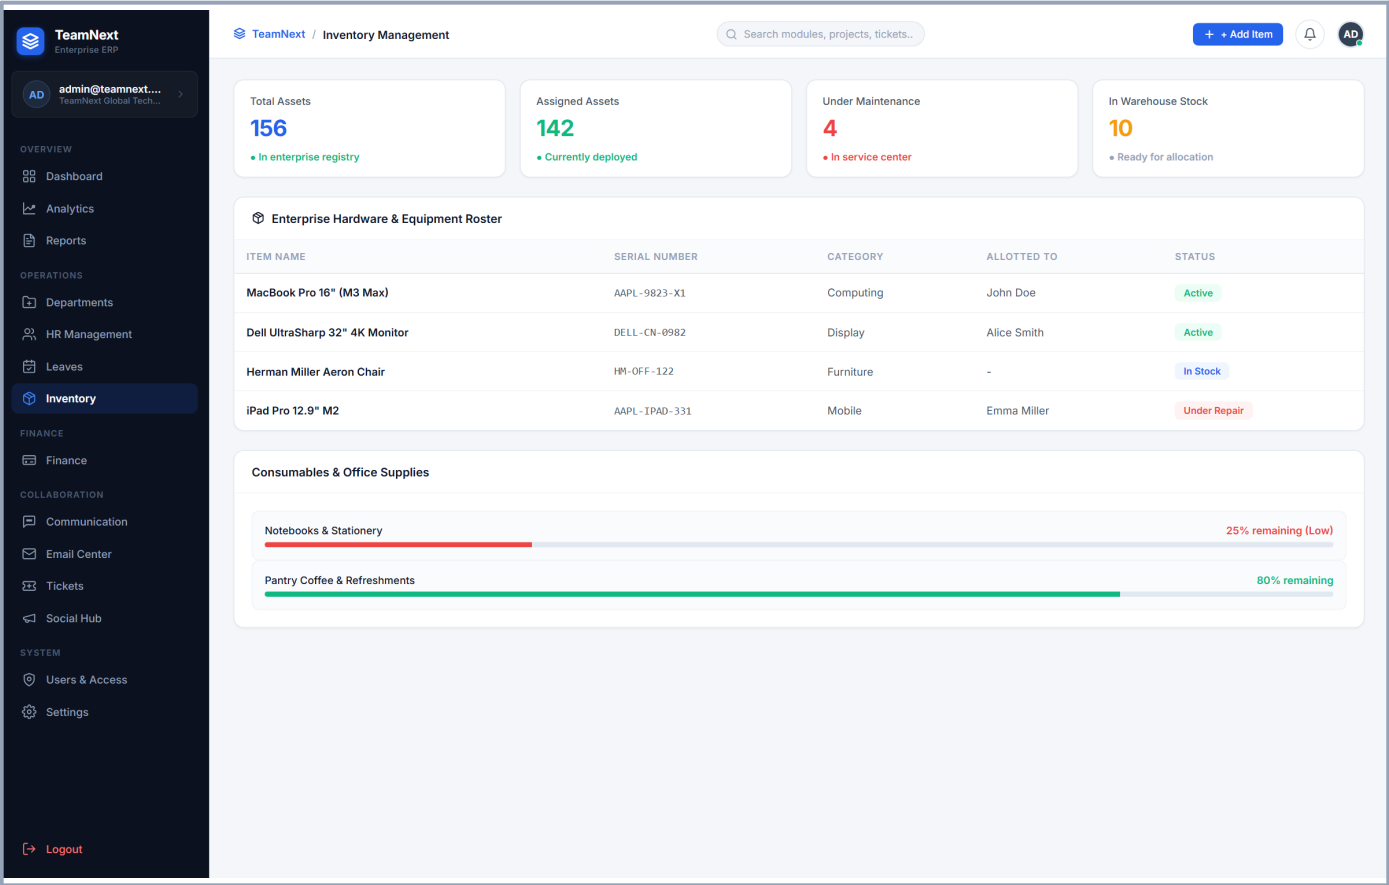

MODULE 15 OF 20 • FINANCIAL MANAGEMENT

Asset Inventory & Stock Control

Route URL: <http://127.0.0.1:8000/inventory-page/>

Authentication: Required (Session Verified)

Functional Overview: Hardware, software license, and office asset tracker featuring SKU cataloging, unit pricing, real-time quantity monitoring, and valuation summaries.

Key Menu Actions & Capabilities:

- Live interactive data filtering & CRUD actions
- Real-time modal dialogues and form input validation
- Breadcrumb navigation and fast module switching

Business & Security Value:

- Role-based permission controls & audit logs
- Export capabilities (PDF / Excel / CSV formats)
- Responsive UI styled with modern CSS & glassmorphism

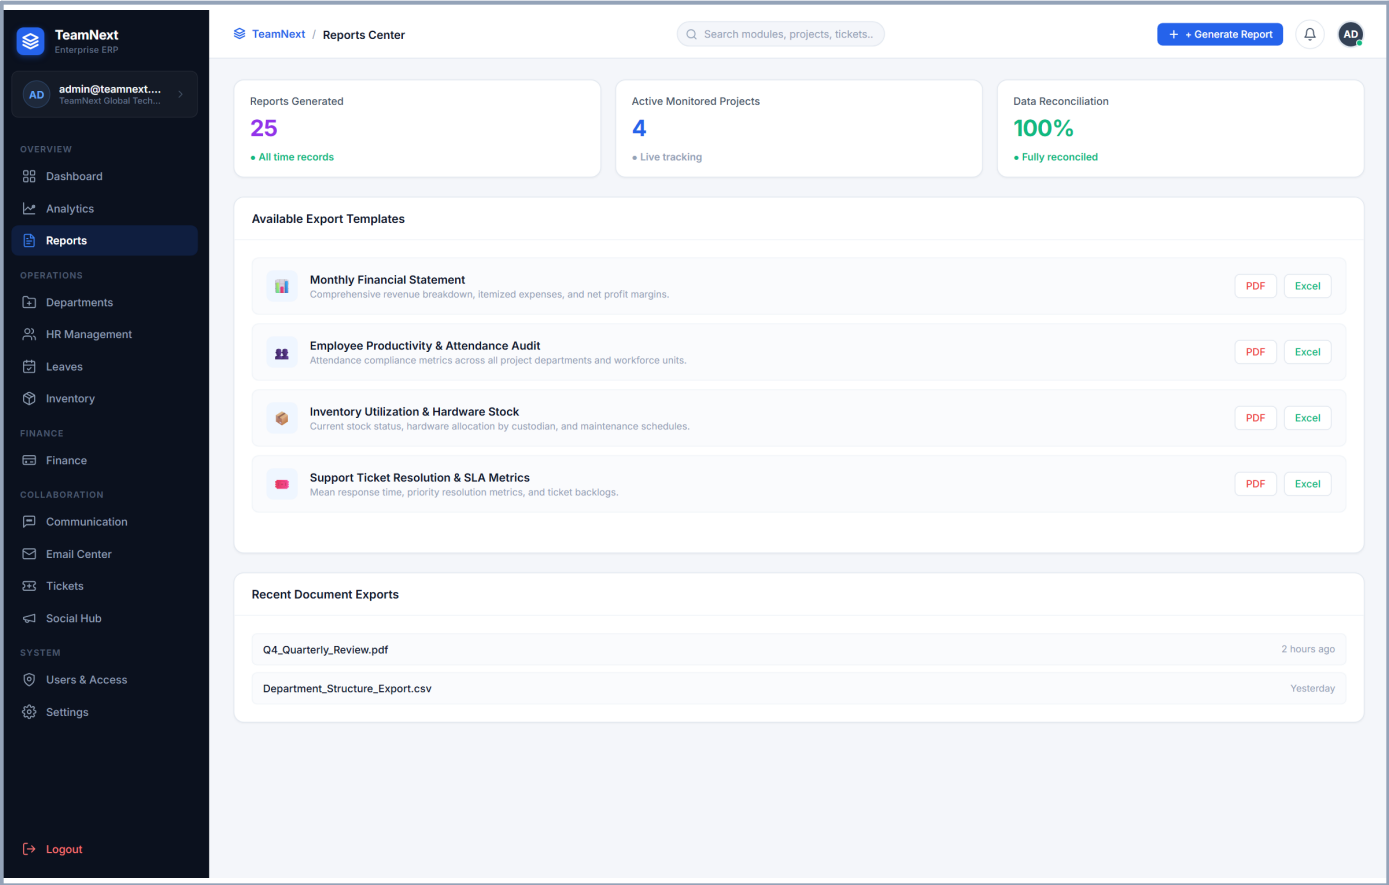

MODULE 16 OF 20 • BUSINESS INTELLIGENCE

Executive Reports & Document Generator

Route URL: <http://127.0.0.1:8000/reports-page/>

Authentication: Required (Session Verified)

Functional Overview: Comprehensive reporting engine generating exportable executive summaries across Financial statements, HR headcount, Project velocity, and Operations.

Key Menu Actions & Capabilities:	Business & Security Value:
• Live interactive data filtering & CRUD actions • Real-time modal dialogues and form input validation • Breadcrumb navigation and fast module switching	• Role-based permission controls & audit logs • Export capabilities (PDF / Excel / CSV formats) • Responsive UI styled with modern CSS & glassmorphism

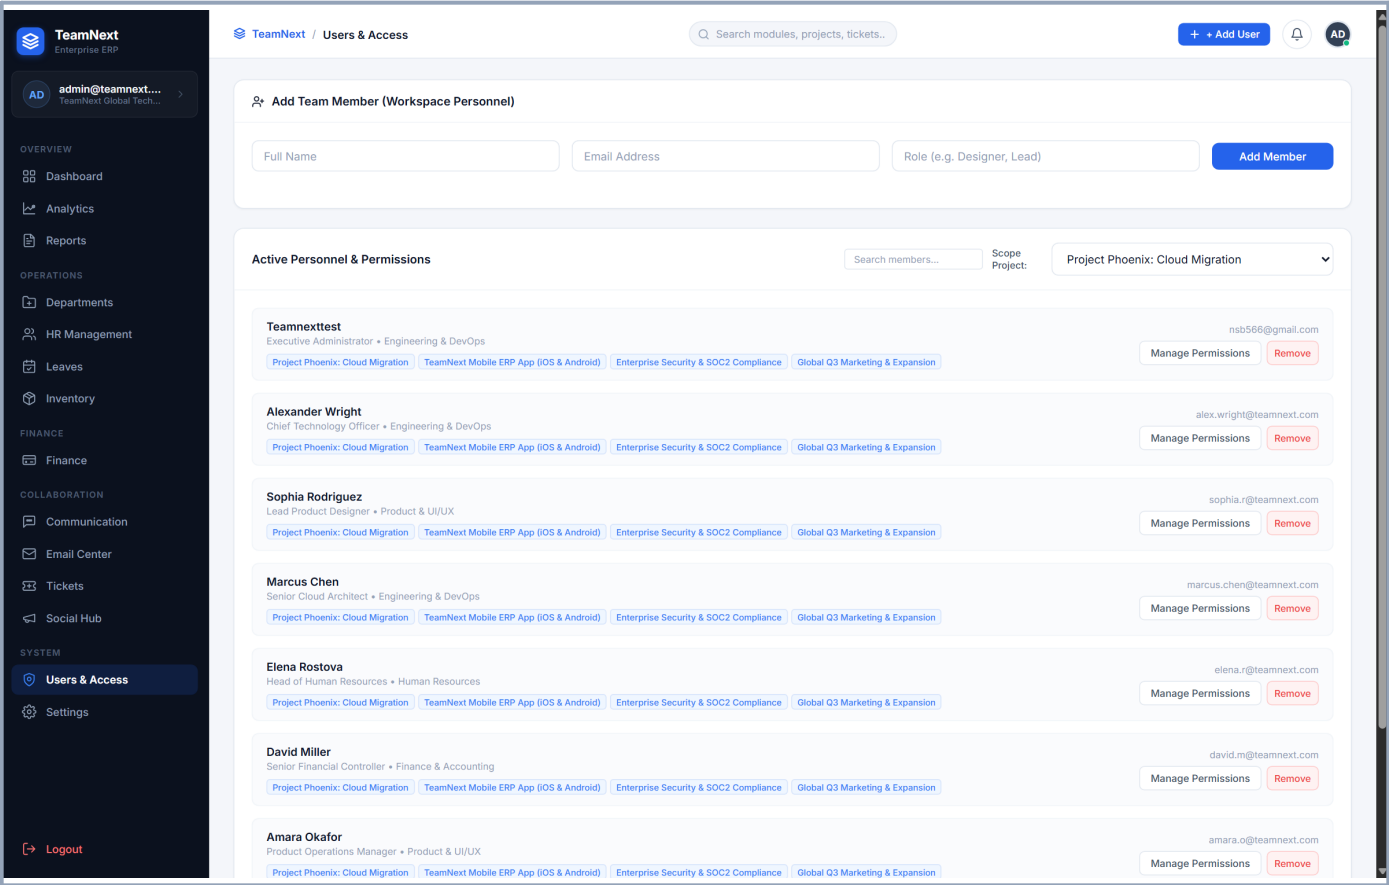

MODULE 17 OF 20 • SYSTEM ADMINISTRATION

User Management & Role Administration

Route URL: <http://127.0.0.1:8000/users-page/>

Authentication: Required (Session Verified)

Functional Overview: Company-wide staff directory, role-based permission management, new developer/employee invitation workflows, and direct profile administration.

Key Menu Actions & Capabilities:

- Live interactive data filtering & CRUD actions
- Real-time modal dialogues and form input validation
- Breadcrumb navigation and fast module switching

Business & Security Value:

- Role-based permission controls & audit logs
- Export capabilities (PDF / Excel / CSV formats)
- Responsive UI styled with modern CSS & glassmorphism

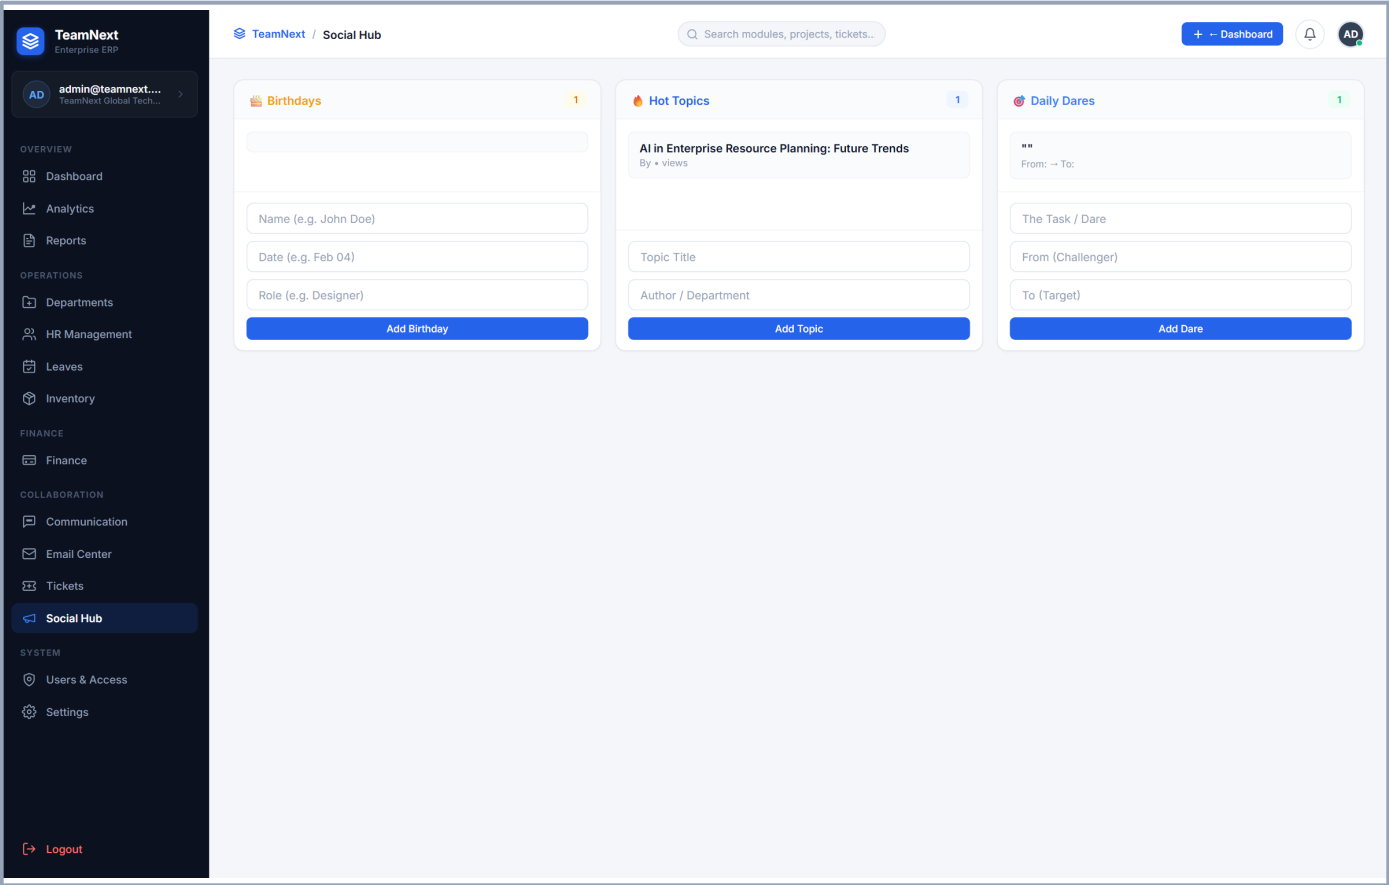

MODULE 18 OF 20 • COMMUNICATION & COLLABORATION

Internal Social Feed & Announcements

Route URL: <http://127.0.0.1:8000/social-page/>

Authentication: Required (Session Verified)

Functional Overview: Employee engagement network highlighting colleague birthdays, trending workplace topics, company-wide announcements, and interactive team challenges.

Key Menu Actions & Capabilities:	Business & Security Value:
• Live interactive data filtering & CRUD actions • Real-time modal dialogues and form input validation • Breadcrumb navigation and fast module switching	• Role-based permission controls & audit logs • Export capabilities (PDF / Excel / CSV formats) • Responsive UI styled with modern CSS & glassmorphism

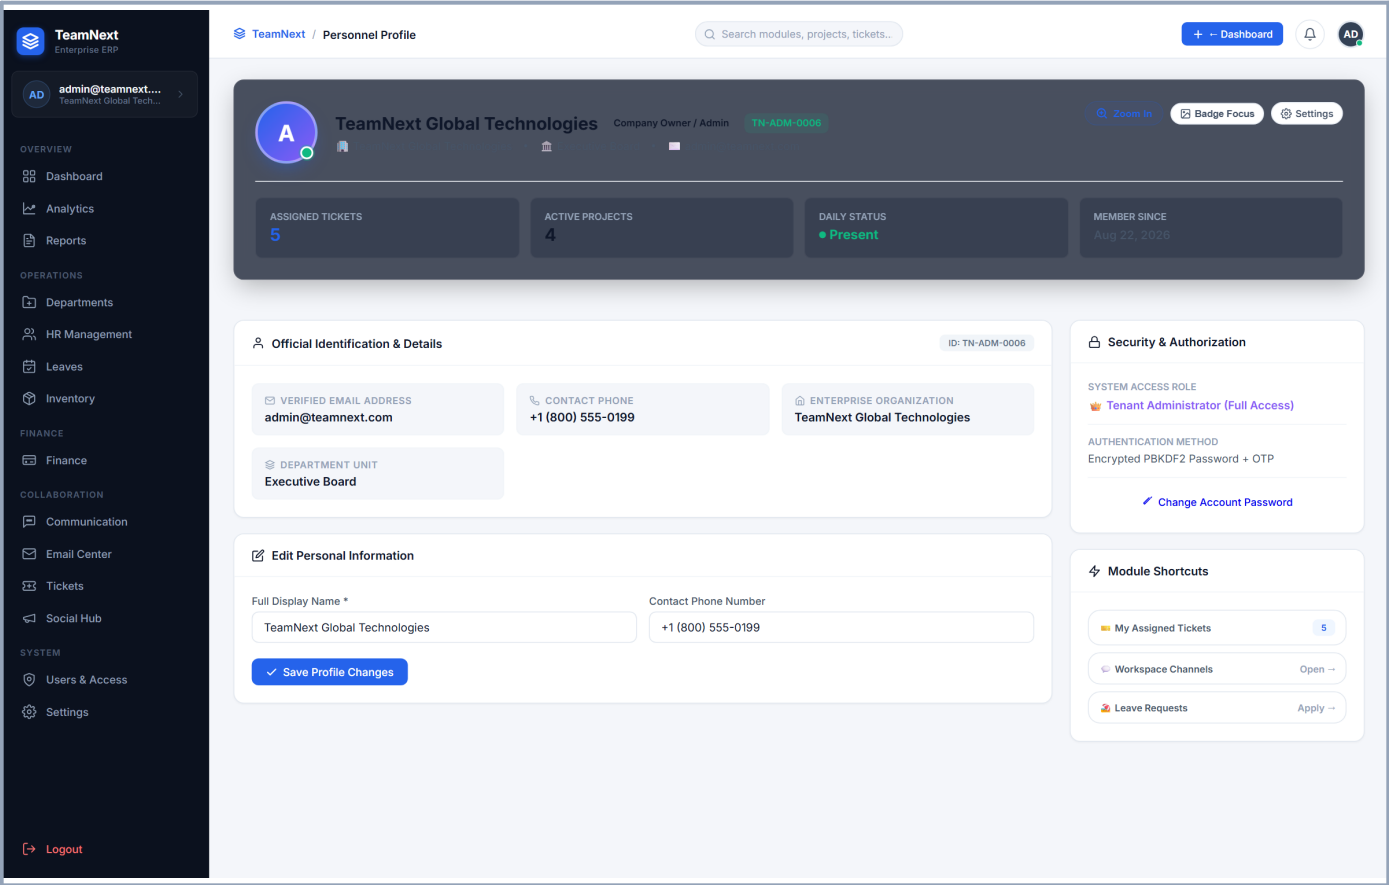

MODULE 19 OF 20 • SYSTEM ADMINISTRATION

Personal User Profile & Security Settings

Route URL: <http://127.0.0.1:8000/profile-page/>

Authentication: Required (Session Verified)

Functional Overview: User profile management interface for updating avatar, contact phone numbers, biographical info, department roles, and password credentials.

Key Menu Actions & Capabilities:	Business & Security Value:
• Live interactive data filtering & CRUD actions • Real-time modal dialogues and form input validation • Breadcrumb navigation and fast module switching	• Role-based permission controls & audit logs • Export capabilities (PDF / Excel / CSV formats) • Responsive UI styled with modern CSS & glassmorphism

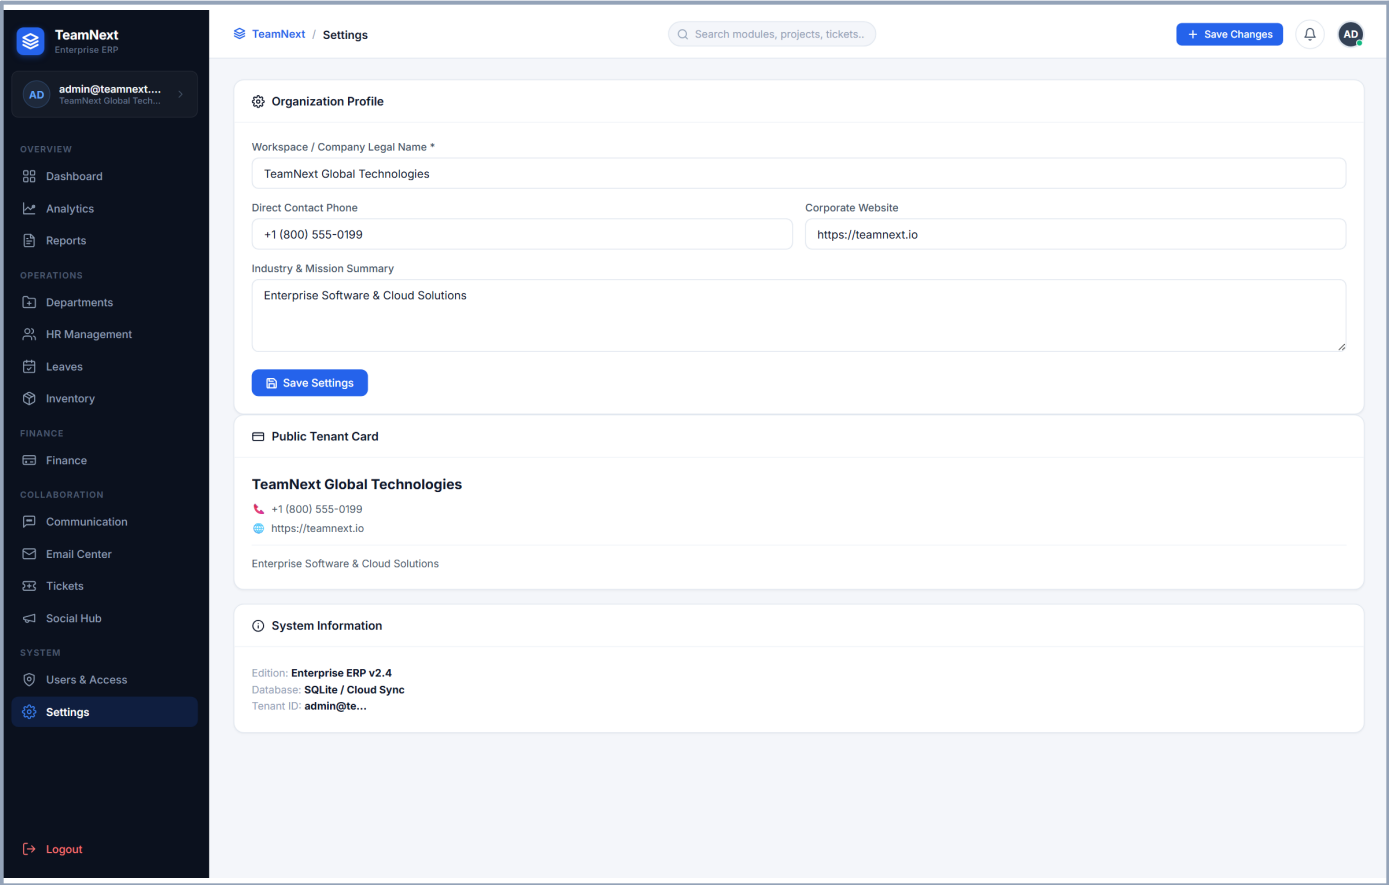

MODULE 20 OF 20 • SYSTEM ADMINISTRATION

Workspace & Organization Settings

Route URL: <http://127.0.0.1:8000/settings-page/>

Authentication: Required (Session Verified)

Functional Overview: Global workspace configuration for custom company branding, email notification triggers, theme settings, API integrations, and security policies.

Key Menu Actions & Capabilities:	Business & Security Value:
• Live interactive data filtering & CRUD actions • Real-time modal dialogues and form input validation • Breadcrumb navigation and fast module switching	• Role-based permission controls & audit logs • Export capabilities (PDF / Excel / CSV formats) • Responsive UI styled with modern CSS & glassmorphism
